PRODUCT DATASHEET

Description	Arctic White Floorprint is a 150 micron textured monomeric self-adhesive PVC film engineered for short term indoor floor graphic applications. This film can be printed with common print platforms including solvent, UV and latex. Arctic White Floorprint makes the ideal choice for single layer floor graphics, removing the need for overlamination.
Film structure	150 micron monomeric calendared self-adhesive PVC film, with a 120gsm double PE coated paper liner.
Adhesive type	Clear permanent, mid tack, solvent based.
Adhesive attributes	Quick tack: 10~13 N / 25mm Peel 20 min: 8~10 N / 25mm Peel 24 h: 13~15 N / 25mm
Basis caliper	0.15mm+5%
Basis weight	210 g/m2+5% (excludes adhesive & back liner weight).
Slip rating	Independantly tested to meet P3 slip rating against AS/NZS 4586:2013
Print compatibility	Printable with Eco-solvent, Solvent, Latex and UV inks.
Life expectancy	Durability is 3-6 months, pending installation location, aspect, and environmental conditions. Longevity is provided as a guideline only, and can be influenced by many variables including, but not limited to, processing techniques, surface preparation, vertical or horizontal exposure, aspect, exposure to UV & environment.
Print compatibility	Eco-solvent, Solvent, Latex and UV inks.
Storage & best before	Should be kept in clean dry conditions, stored and processed between 15-25 degrees Celsius at 50% RH. Best used within 12 months from date of manufacture. Always keep product in original packaging away from direct sunlight. Condition rolls to print room at least 24 hours prior to printing.
