

Mountac HQ Clear

Permanent lamination film

PRODUCT DATASHEET	
Description:	Mountac is a quality translucent double-sided self-adhesive lamination film suitable for many graphics applications. Mountac is easy to process, provides excellent adhesion to almost all synthetic materials such as acrylic plastics, HIPS, polyester and PVC films, as well as timber, glass or metals. Suitable for internal or external applications.
Film structure:	12 micron PET film, with white release paper liner (liner weight 90g/m ²)
Adhesive type:	Clear permanent, solvent-free acrylic adhesive (adhesive weight 60g/m ²)
Adhesion:	On steel: (after 20 min) - 8 N/25mm, AFERA 5001 (after 24hr) - 11N/25mm, AFERA 5001
Life expectancy:	Durability is up to 2 years unprinted, pending installation location, aspect, & environmental conditions. Longevity is provided as a guideline only, and can be influenced by many variables including, but not limited to, processing techniques, surface preparation, vertical or horizontal exposure, aspect, exposure to UV & environment.
Storage & best before:	Should be kept in clean dry conditions, stored and processed between 15-25 degrees Celsius at 50% RH. Best used within 12 months from date of manufacture. Always keep product in original packaging away from direct sunlight. Condition rolls to print room at least 24 hours prior to printing.
<p>NB: The estimated durability is based on accelerated ageing tests and refers to a vertical exposure under middle European climates. The durability of the product depends on the substrate's preparation, the atmospheric conditions and the environmental influence.</p> <p>Data represents typical values and is not intended for use as a specification.
