VIEWjet Monomeric Self-adhesive PVC

Description	<p>VIEWjet Monomeric self-adhesive PVC.</p> <p>Standard products include Gloss White & Gloss Clear. Other options available by request. VIEWjet can be supplied with clear or grey blockout acrylic adhesive, both adhesives carry the same technical adhesion characteristics & both are removable. Environmental conditions as well as age can impact removability of all self-adhesive PVC films. VIEWjet is supplied on a 160gsm double coated PE liner providing moisture resistance & stability under all printing applications.</p> <p>VIEWjet will produce quality print results on all print platforms including solvent, eco solvent, latex, UV as well as screen printing.</p> <p>VIEWjet is the ideal choice for short-medium term graphics such as point of sale applications, internal wall graphics, promotional posters & real estate graphics. The ideal matching overlamine is VIEWlam, this combination forms the ultimate Print & Protect combination.</p>
IMPORTANT NOTE	<p>We recommend thorough testing within your own conditions. Please ensure you test on your equipment following your own processing techniques to determine complete suitability for the end use application.</p>
